

OF230 – SOFT to INTERMEDIATE TERRAIN

- OF230 front and rear tyres deliver outstanding grip and performance
- Exceptional wear, grip and durability
- Open paddle design for superior mud clearing and bite
- Made from natural rubber and highly resistant to knob breakage

OF230 – Front/Rear
Soft to intermediate terrain

OF215/OF217 INTERMEDIATE TERRAIN

- OF215 front tyres deliver exceptional cornering performance and grip on all terrain
- Stiffer sidewall design increases turning response with less deflection on uneven terrain
- OF217 rear tyre profile is designed for increased contact area with maximum centreline grip and traction
- Cupped design provides outstanding braking control, even at extreme lean angles
- Natural rubber compound and unique construction of front and rear tyres provide excellent performance over an extremely wide range of terrain – from mid-soft to mid-hard

OF215 and OF217
Intermediate terrain
